INDEX

1971-1974

Volumes 37-40

This index to the *Journal of the American Institute of Planners* includes all issues from 1971 through 1974 (Volumes 37 through 40). It was prepared by Patricia Perrier.

There are four earlier indexes to the *Journal*. The first, published in 1958 (Volume XXIV, Number 2), included all volumes from 1925 through 1957. The second, published in 1964 (Volume XXX, Number 5), covered all volumes from 1958 through 1964. The third, published in November 1967, covered all volumes from 1965 through 1967. The fourth, published in November 1970, included all volumes from 1968 through 1970.

Entries in this index are under a single alphabetical listing by author and subject headings. A complete list of the subject classifications appears on the following page. The entries include articles, interpretations, planner's notebook items, research notes and reports, book reviews and book notes, comments, and other contributions. Under each author's name, articles come first, then other contributions, followed by the author's books reviewed in the *Journal*. In the use of subject headings, the first entries are articles listed alphabetically by title, then other contributions on the topic, ending with books reviewed.
